PROFESSIONAL SUMMARY

Dynamic Software Developer with 4+ years of experience in building scalable, cloud-native applications. Proficient in **Full-Stack development** using **.NET/C#** and modern front-end frameworks like **React**. Proven track record in designing microservices, optimizing high-throughput APIs, and implementing containerized solutions with **Docker & Kubernetes**. Passionate about Vodafone's mission to connect people through sustainable and innovative technology.

TECHNICAL CORE COMPETENCIES

Front-End: React, TypeScript, JavaScript, HTML5, CSS3, Responsive UI	Back-End: .NET 8, C#, ASP.NET Core, Java/Spring Boot (Awareness)
Infrastructure: Docker, Kubernetes, Azure DevOps, CI/CD, Microservices	Databases: SQL Server, PostgreSQL, MySQL, NoSQL (Cosmos DB, Redis)
API & Integration: RESTful APIs, GraphQL, RabbitMQ, Event-Driven Architecture	Testing/Tools: Jest, xUnit, Playwright, Git, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Developer WE3DS COMPANY	Jul 2024 – Present Tanta, Egypt / Global Remote
- Design and develop responsive front-end applications and reusable UI components integrating with .NET 8 backends. - Architected high-throughput ingestion pipelines using Microservices, achieving 99.9% fault tolerance for 15,000+ nodes. - Optimized API performance and server-side logic, reducing technical debt and improving response times for global stakeholders. - Lead peer code reviews and mentor a team of 6, enforcing Clean Architecture and secure coding practices. - Streamlined cloud-native deployments via Azure DevOps, Docker, and Kubernetes, increasing release frequency by 25%.	
Software Developer ERRA SOFT	Nov 2023 – Jul 2024 Cairo, Egypt
- Developed scalable backend services for financial telemetry, optimizing SQL Server and Cosmos DB query performance. - Implemented Event-Driven Systems using Redis and RabbitMQ, scaling throughput by 300% to support 8,000+ daily active users. - Refactored legacy logic to reduce data processing latency by 75%, ensuring high availability and reliability for analytical reports. - Collaborated in agile teams to translate complex requirements into documented, modular RESTful API endpoints.	

STRATEGIC TECHNICAL PROJECTS

Scalable Full-Stack Platform | .NET 8, React, Docker, RabbitMQ

- Developed a high-availability ecosystem focusing on high-volume data processing and seamless integration with third-party platforms.
- Implemented automated testing suites using **Jest and xUnit** to ensure application reliability and accessibility.

EDUCATION & LANGUAGES

B.Sc. in Computer Science | Higher Technological Institute (HTI) | 2021

Languages: English (Professional Fluency), Arabic (Native)
