PROFESSIONAL SUMMARY

Full-Stack Software Developer with over 4 years of experience building secure, scalable, and high-performance applications. Expert in **.NET 8** and **C#** for back-end microservices and **React/TypeScript** for front-end development. Focused on delivering **accessible**, reliable solutions through automated testing with **Playwright** and **Cypress**. Proven track record in **performance optimization** and collaborative **peer code reviews** within global Agile teams.

TECHNICAL CORE COMPETENCIES

Front-End: React, TypeScript, Angular, Vue.js, HTML5, CSS3, Responsive Design

Back-End: .NET 8, C#, ASP.NET Core, Java/Spring Boot (Familiar), GraphQL, REST APIs

Security: OAuth 2.0, OpenID Connect, JWT, RBAC, SSL/TLS, Secure Coding Practices

QA & Testing: Playwright, Cypress, Jest, xUnit, API Testing, TDD, Integration Testing

Data & Infrastructure: SQL Server, MySQL, PostgreSQL, MongoDB, Redis, Docker, Kubernetes

Practices: Agile/Scrum, CI/CD, Azure DevOps, Microservices, Peer Code Reviews

PROFESSIONAL EXPERIENCE

Senior Software Developer

Jul 2024 – Present

WE3DS COMPANY

Tanta, Egypt / Global Remote

- Design and develop **responsive front-end applications** and reusable UI components integrating with high-performance .NET backends.
- Participate in rigorous **peer code reviews** to ensure code quality, **scalability**, and knowledge sharing across engineering teams.
- Troubleshoot and resolve** complex application defects and production issues, maintaining 99.9% fault tolerance for core nodes.
- Implemented **performance optimization** strategies that reduced latency and improved **accessibility** for enterprise-wide applications.
- Utilized **Playwright and Cypress** for E2E testing to ensure reliability and cross-browser consistency of newly developed features.
- Managed cloud-native microservices using **Docker and Kubernetes** via automated **Azure DevOps** CI/CD pipelines.

Software Developer

Nov 2023 – Jul 2024

ERRA SOFT

Cairo, Egypt

- Engineered scalable backend services focusing on relational (**MySQL**) and NoSQL (**MongoDB**) data optimization and **performance**.
- Troubleshoot and resolved** production bottlenecks, increasing system throughput by 300% through strategic caching and query tuning.
- Collaborated with **cross-functional teams** in an **Agile** environment to build secure integrations with enterprise platforms.
- Optimized application **security** by implementing OAuth 2.0 and JWT frameworks for distributed systems.

STRATEGIC TECHNICAL PROJECTS

Secure Enterprise Platform Integration | .NET 8, React, GraphQL, Playwright

- Architected secure integrations with CRM/ERP platforms, utilizing **GraphQL** for optimized data retrieval and high scalability.
- Performed regular **performance audits** and optimized front-end components for better accessibility and user engagement.

EDUCATION & CREDENTIALS

B.Sc. in Computer Science | Higher Technological Institute (HTI) | 2021

Relevant Certifications: Microsoft Certified: Azure Fundamentals (AZ-900)

Languages: English (Professional Fluency), Arabic (Native)
